

Total Dog Harness System

Total Body Harness System is the answer to an All-In-One support harness.

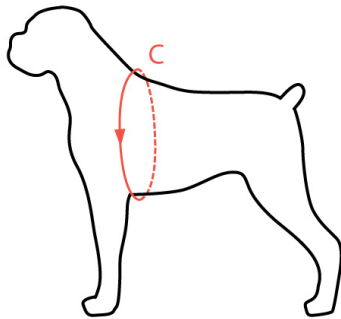

Designed by canine rehabilitation experts **specifically for post-op patient control** and as an **assistive device for older arthritic dogs**, the Total Body Harness System defines the control **veterinarians desire for safe patient recovery and the ease of use that pet owners need to help their ageing loved ones.**

This Full Body Dog Harness System is constructed from durable 600-denier nylon and is lined with fleece for maximum comfort. The quick-release buckles make for an easy application and the adjustable straps provide a secure custom fit.

Disclaimer

Please note that this, and all animal support equipment should be used at the advice of a veterinarian or animal rehabilitation specialist. Lifting a dog with this harness can cause problems depending on the health of the dog. In addition, use of a lifting harness can cause chafing. After your initial use, and after each subsequent use, please check the dog carefully for bruises, scrapes, and any chafing.

Sizing Chart

Size	(C) Girth of Chest		Weight	
	inches (from-to)	cm (from-to)	lbs (from-to)	kg (from-to)
Small	16	40.64	1	0.45
	20	50.80	15	6.80
